Welcome to the Pool!

For more than 100 years, the YMCA has been a leader in aquatics and water safety. The Westport Weston Family Y Swim Lesson program is designed to provide three equally important experiences for your child: The satisfaction of learning new swimming skills, the opportunity to increase physical fitness, and training in personal safety and lifesaving skills. Instruction is caring and personalized. Classes are available 7 days a week to meet your family's needs: mornings and afternoons.

Additionally, you may choose to register your child for more than one weekday swimming class if you want to spend even more time in the water this Summer. For more information contact Aquatics Director Jacquie Tumminia at 203-226-8981 x119 or jtumminia@westport.org.

The Family Y's Fountain of Youth

Built in 1929, our much-loved Brophy Pool is four feet deep and kept at a comfortable 90 degrees – ideal conditions for our youngest swimmers and for those who swim for therapeutic reasons.

Select Your Classes

Consult the course descriptions and select the appropriate level, day and time. Please indicate a first and second choice of classes. Please keep in mind that parents attend and participate with their children through the "Pike I" level. If you are unsure about placement for your child please contact Aquatics Department.

Membership Required

All lesson participants must be members of the Family Y. Membership must be valid until the end of the session. Membership cards must be presented at the Member Service Desk each time a child comes to class. Use your membership to swim for fun outside of class!

A Special Note To Parents

During the weeks of October 17-23 and December 5-11, parents are welcome to stay and see their child's lesson. Otherwise, parents are asked to please wait outside the pool area. You may drop off and meet your child at the door if you wish. Meet and greet your child's instructors the first week of class.

AQUATICS

Parent/Child Swim Classes (ages 6-48 months with parent)

The primary objective of these classes is to acquaint both parent and child to the aquatic environment. They are designed for the child to have fun in the water, learn basic propulsive movements and personal safety under the guidance of his or her parent. Children also learn independence in the water which will prepare them for lessons without parents.

Shrimp/Kippers (ages 6-18 months)

Introduces parents with infants to a safe aquatic environment, providing a positive hands-on experience for both. Skills such as blowing bubbles, kicking, floating and limited arm movements are introduced. All skills are done with parent holding infant at all times. This is a wonderful opportunity to build a trusting relationship with your child while participating in an enjoyable physical activity.

Wednesday 10:30-11:00 am
Saturday 8:45-9:15 am
Sunday 10:25-10:55 am

Inia/Perch (ages 19-36 months)

In the Inia level we encourage a child's independence using various types of flotation supports. Proper body movements along with kicking, floating, blowing bubbles and jumping into the water are taught. Parent role modeling is highly recommended for a child at this age. Your child will learn from repetition and a trusting, patient parent. This is a great place to share new experiences and interact with everyone in the class.

Wednesday 11:00-11:30 am
Saturday 9:45-10:15 am
Sunday 10:00-10:30 am

Pike I (ages 3-5 years)

An extension of the Perch class for 3- to 4-year-olds. It encourages self-esteem along with independence. It teaches the basic swimming techniques and prepares the child for classes without parents. Please note: some Pike classes may be combined with Perch classes.

Saturday 9:15-9:45 am
Sunday 11:00-11:30 am

AQUATICS

Pre-School Swim Lessons (ages 3-5 years without parent)

Personal Training at the Family Y

Why Personal Training?

Everyone can benefit from being physically challenged in new ways to remain functional and healthy. If your body is asked to respond to different stimulus it is forced to make acclimations that can result in faster weight loss, more lean muscle mass, better core stability, balance and flexibility.

Maybe you are a beginner and new to the fitness center environment? A personal trainer helps you create a routine that matches your goals. Our personal trainers can help you become familiar with the many options available to you from medicine balls to free weights.

Many intermediate or advanced weight lifters hit plateaus in their workout. A trainer can not only make sure you are doing your current workout in a safe and effective way but can help design a new program to bring you to the next level. Our staff can help find ways to get some of those muscles you forgot you had working again!

Pre-habilitation or Rehabilitation

A Family Y personal trainer can help you prepare yourself for surgery or medical procedures by strengthening your muscles and increasing your stamina. Post-rehabilitation, Y trainers are available to work with doctors or physical therapists to provide a smooth transition from rehabilitation to regular workouts.

If you have any questions regarding personal training or would like to make an appointment please contact Shelley Moll, Director of Health and Wellness at x198 or smoll@westporty.org.

Reiki

Reiki energy balances the body, mind, and spirit. During a session, the client is fully clothed on a massage table in a relaxed and comfortable environment. Reiki Master Tesa Baum places her hands gently on different parts of the body, helping energy to flow to areas that are blocked or stagnant. The positions focus on the seven major chakras or energy centers of the body. The clearer the energy flow, the more the client's health and well being can improve. As these improvements develop, there is a natural process of renewal as the body more easily rids itself of toxins, ultimately opening up more of the body to life energy. By appointment only - please call 203-226-8981 x198.

BUILDING WHAT MATTERS

The Campaign to Fund and Construct a New Home for Our Family Y

How We Will Fund It

Our campaign to build a new Family Y that will meet the current and future needs of our members and the entire community will require the generosity of our community's philanthropic leaders, as well as the support of equally involved and committed Y members, businesses and foundations. As of June, 2011, we have raised \$25 million toward the cost of building a sustainable new home.

When We Will Build It

Construction of our new Family Y is expected to begin in the fall of 2012, with the new facility open for use by the end of 2014. We will also undertake a traffic mitigation project at the Merritt Parkway Exit 41 interchange. The Town of Westport will not be responsible for the funding of the traffic mitigation project.

How We Will Handle Traffic at the New Location

The intersection of Exit 41 and State Route 33 is an important interchange for commuters and other traffic in Fairfield County. Both the State DOT and the Transportation Commission have approved the Westport Weston Family Y's application to modify Exit 41 to improve safety and to provide for

acceptable traffic flows on the surrounding roads once the new facility is opened.

What Will Happen to the Y's Historic Home Downtown

The Family Y has an agreement to sell the current facility to a respected local private developer. The developer is exploring a number of future uses. The Family Y will remain in its current location until the new facility is completed, thereby ensuring that our service to the community will continue uninterrupted.

What Happens If We Can't Raise the Money We Need

We are confident that Y members and other leaders in our community will express their support of our mission by making an investment in our Family Y's future. That said, we will not proceed with the construction phase of the new Family Y without a degree of certainty that we will have sufficient funds to construct a suitable, financially sustainable facility.

How You Can Help

You can help by talking to your friends and neighbors about why the Y matters to you and your family – and how our new Y will allow us to help us meet the current and future needs of the entire community. To discuss making a financial contribution to the Building What Matters capital campaign or to become a campaign volunteer, please contact Rob Reeves, Family Y CEO, at 203-226-8981, x131, or reeves@westportry.org.

MAHACKENO OUTDOOR CENTER

The rustic setting for the Family Y's popular Camp Mahackeno during the summer, Mahackeno Outdoor Center is situated on 32 acres of open space and recreational areas along the banks of the Saugatuck River, just off Exit 41 of the Merritt Parkway.

Camp Mahackeno

Founded in 1938, Camp Mahackeno is part of Westport history. Established as a "stay at home camp" for local boys, the summer camp facilities at 32-acre Mahackeno Outdoor Center are rustic and scenic, as befits the property's original role three centuries ago as a summer lodge and hunting grounds for a Native American chief and his tribe.

Today our camp features an array of amenities and programs for boys and girls, including a six-lane outdoor swimming pool, 12-acre Lees Pond for canoeing and fishing, rock wall for climbing and plenty of space and time for such traditional camp activities as archery, leather making and arts and crafts. There's also a strong outdoors program for older campers, complete with team-building exercises and local field trips.

Each summer we offer eight one-week sessions for campers entering grades 1 through 10, as well as two Special Events Weeks for campers entering grades 1 through 6, held before and after the regular camp season. In addition to arts and crafts, swimming and sports, these fun-filled weeks

include special activities like a "gold rush," Zider Zee, water inflatables and other fantastic events.

Camp Mahackeno is divided into units designed to give age-appropriate levels of supervision and camp activity. These groups have 20 to 24 campers each, with 200 to 250 children per week per session. Camp is held rain or shine, 9:00 am to 4:00 or 4:30 pm every weekday. Bus service is offered to local campers, and campers with working parents can also enjoy extended opportunities before and after regular camp hours to participate special activities.

Behind all of the fun at camp is a staff that cares a great deal about keeping campers both physically and emotionally safe and secure as they play, explore, try and succeed. A big part of summer camp is meeting new friends and doing all kinds of things with them. While a camper may know one or two people in their group at the beginning, by the end of the session, groups really come together under the guidance of our trained staff.
